

They say we are the workforce behind the nation's workforce,
Our impact is profound
From drop off to pick up,
for our parents and children,
we stand on solid ground.

Care is education
Education is care
so we deserve equitable pay.

All day,
all year,
child care in homes, centers, before school and after,
we are here.

Show up,
stand strong,
for the Universal Child Care fight.

New York's child care workforce must have the right
to feed our own
With thriving wages and benefits
not fear of losing our homes

Children now.
Families now.

Workforce now.
